prateekpc.ux@gmail.com - 508-471-0199 - [Portfolio](#) - [LinkedIn](#) - Arlington, VA (*Willing to Relocate*)

Senior UX/UI Designer with 8+ years of experience designing enterprise products across healthcare, Federal, Telecom, Automotive & IT consulting industries. Experienced in UX strategy, user research, information architecture, design systems, Agile product development, and cross-functional leadership, delivering scalable solutions for complex enterprise platforms.

- Design thinking
 - Qualitative, quantitative res
 - Visual, interaction design
 - Competitive analysis
 - A/B testing
- Design system
 - Stakeholder mgmt
 - 508 compliance testing
 - Affinity mapping
 - User interviews & surveys
- Managing UX team
 - Wireframing, prototyping
 - Usability testing
 - User flows/personas/journeys
 - Accessibility testing

Professional Experience

Senior UX/UI Designer - Analytics, AI & Data Governance | [Inova Health System](#) | Arlington, VA | August 2023 - Present

- Led product strategy and design for enterprise analytics, AI, and data governance initiatives across Inova Health System, collaborating with Executive Leadership, Data Governance, Analytics, and Engineering teams to drive enterprise-wide modernization and governance efforts.
- Designed and launched **Periscope**, an enterprise analytics marketplace supporting **20,000+ healthcare employees**, centralizing dashboards, reports, AI models, and data products into a single discovery experience.
- Led UX strategy and design for **Inova Assist**, a HIPAA-compliant enterprise AI assistant, partnering with AI, governance, and engineering teams to create secure, scalable experiences for knowledge discovery and workflow automation.
- Defined information architecture, search, metadata, certification, ownership, and governance experiences across **20+ analytics platforms and data sources**, including Power BI, Tableau, Epic, SharePoint, AI platforms, and internal applications.
- Led UX strategy and design for an enterprise AI Inventory managing **200+ AI models**, improving governance, discoverability, and transparency across the organization.
- Created Tableau design system, design standards, design guidliens, accessibility guidelines, and reusable UX components adopted across **multiple analytics teams and dashboards**, improving consistency and usability.
- Created Power BI governance framework and standards for Intake, design, development, certification, and documentation, improving data trust, consistency, and discoverability during **Tableau-to-Power BI** transition.
- Partnered with BI Developers, Business Intelligence Leads, and clinical stakeholders to define KPIs and design healthcare analytics solutions supporting benchmarking, performance improvement, and executive reporting.
- Led discovery, intake, wireframing, and data visualization, designs for healthcare analytics products including **InovaCare, Heart & Vascular benchmarking, provider scorecards, executive performance dashboards, and operational reporting solutions**.
- Translated complex clinical, operational, and financial metrics into intuitive decision-support experiences used by executives, service line leaders, clinicians, and analysts.
- Facilitated stakeholder workshops and cross-functional team working sessions, aligning business, analytics, governance, and engineering teams from concept through implementation in agile management.

Senior Product Designer | [CGI Inc.](#) | Arlington, VA | March 2022 - June 2023

Received an Award in 2023 | [Celebrating CGI's Values: Partnership and Quality](#)

- Led complex digital products applications through multiple lifecycle and complex stakeholder management.
- Managed CGI’s relationship with [Brightspeed Business](#), leading design sprints with VP and marketing team to enhance customer acquisition, reducing customer attrition through improved CX with the launch of new products.
- Helped Brightspeed launch their brand online by migrating & redesigning **150+ webpages from Lumen and CenturyLink** to the new Brightspeed experience, while also creating **15 new AEM** components to meet design needs.
- Organized a UX workshop with the client, which involved activities like affinity mapping, rose-thorn-buds, user personas/journeys, & competitive analysis to clarify goals and define immediate user and business needs.
- Led the migration of design system from Sketch to Figma, revamped guidelines, font system, color usage, buttons, and components across desktop, tablet, and mobile for consistency & reusability.
- Created mid to high-fidelity prototypes in rapid prototyping sessions to gather user feedback & drive iterative dev.
- Facilitated development meetings to comprehend coding limitations in Adobe Experience Manager (AEM) and provided feedback to streamline component development with time, resource, and development constraints.
- Leveraged Google analytics to track the performance of the product, which showcased a significant boost over **47% increase** in page views, coupled with a **45% increase** in unique pageviews, and a **whopping 70% drop** in bounce rate.
- Led a team of 4 product designers to design a VR experience where users can practice high stress social tasks to build skills and confidence. The initiative was to help CGI venture into XR industries.
- Designed infographics, logos, cover letters and brand elements for the State of Illinois, child welfare (DCFS) program.

Human-Centered Designer | [Softtrams LLC.](#) | Baltimore, MD | March 2019 - April 2022

- Led a team of 2 researchers & designers to design [ACO Management System Medicare Shared Savings Program](#), a healthcare product under the Center of Medicare & Medicaid services (CMS), a federal agency. Designed new modules in the existing system & collaborated with CMS stakeholders to establish product vision and MVP features.

- Re-designed existing modules with UX research methods, also advocated for clear UX writing and 508 compliance testing (accessibility) using wave/web-aim tools. According to the [performance results of 2019](#), ACO-MS had a record year with users saving **\$1. 2 billion in Medicare** as compared to **\$739 million** in 2018.
- According to [performance results of 2022](#), there was a significant user growth, with 66 new enrollments & 140 renewals. Over **11 million beneficiaries** received care, reflecting a **3% growth of 324k** compared to previous year.
- Conducted UX research & design for a business contract proposal, which resulted in a [\\$37 million program](#).
- Leveraged design thinking & led the research and design of a healthcare SaaS app ([Hdrive](#)) for file sharing and storing. This workflow involved affinity mapping, rose-thorn-buds, user personas/journeys, competitive analysis, user interviews & low to high fidelity prototypes to define and validate user & business needs.

Front-end Developer & UX/UI | CarmaGuys LLC. | *Worcester, MA | January 2018 - Dec 2018*

- Redesigned and developed an appointment & scheduling app for car service and repair startup using Angular, Bootstrap, HTML, CSS, and JavaScript.
- Conducted stakeholder interviews and user research sessions through whiteboard wire framing.
- Designed low-fi prototypes as part of the ideation process and participated in iterative feedback to polish the experience.
- Created hi-fidelity prototypes using Adobe XD and assisted the QA testers with implementing the application.

IT Lab Administrator | Worcester Polytechnic Institute | *Worcester, MA | January 2017 - March 2018*

- Provided technical support assistance to faculty, staff, and students.
- Installed, configured, and maintained software applications used by the department.
- Managed and maintained computer hardware, including desktops, laptops, printers, and peripherals.
- Managed network switches, routers, firewalls, and wireless access points.
- Ensured network security, performance, and availability.
- Managed and maintained servers, including installation, configuration, and troubleshooting of operating systems and server software.
- Managing user accounts, access controls, and permissions.
- Organized and oversaw the network of LAN gaming events, ensuring seamless gameplay by managing and resolving network and hardware issues to eliminate any latency.

Education

Worcester Polytechnic Institute, Worcester, MA

Interactive Media and Game Development, Master of Science, 2016 – 2018

- [View Master’s Thesis](#) - Designed and implemented a car driving simulator to teach driving rules and regulations, incorporating user research, A/B testing, and usability tests to enhance effectiveness and user experience.

University of Mumbai, India

Computer Engineering, Bachelor of Science, 2011 - 2015

Tools

Design

Figma, Sketch, Adobe XD, InVision, Balsamiq, Adobe Photoshop, Illustrator, Mural, Miro, Optimal Workshop, Google Docs, Miro, SharePoint

Business

Jira, Confluence, SQL, MS Excel, Salesforce, Power BI, Web analytics (Google Analytics), Pendo, Lucidcharts

Development

HTML, CSS, Bootstrap, jQuery, JavaScript, C#, NodeJS

Other

Premiere Pro, Maya 3D, Unity Engine, Unreal Engine, VR & Game design

Certifications

- Certified SAFe® 6 Product owner/ Product manager (POPM) certificate
- Certified SAFe® 5 Practitioner certificate
- User experience and interaction for AR/VR/MR/XR – Certificate authorized by University of Michigan
- Foundation of user experience (UX) Design – Google UX design certificate
- Conduct UX research and test early subjects – Google UX design certificate
- Start the UX design process: Empathize, define, ideate – Google UX design certificate
- Build wireframes and low-fidelity prototypes – Google UX design certificate
